Rules for Empty Car Moves on Short Lines & CSXT 6051 Public Price Authority

Switch Settlement:

- Switch Settlement roads DO NOT participate in CSXT 6051.
- The AAR industry accounting rule for reciprocal switches only applies loads and does not apply to revenue empties.
- Switch Settlement roads must work directly with shippers and bill them directly for any freight movement.
- Applies to all empty cars moves (including both revenue and non-revenue moves).

Interline Settlement System (ISS)

- ISS roads DO NOT participate in CSXT 6051.
- The ISS Short Line bills and collects shippers directly (on a Rule 11 basis) for empty moves on their road.
- CSX does not participate in joint line rates for empty moves with ISS Short Lines.

Junction Settlement

- 59 Junction Settlement Short Lines currently participate in CSXT 6051 (41 do not).
- CSXT 6051 participants will be paid only on CSX empty revenue moves, not on CSX non-revenue empty moves.
- CSXT 6051 participants should notify CSX ahead of time if they enter into customer agreements that would replace or waive their CSXT 6051 revenue factor.
- Participating carriers are listed in the Frontmatter of the CSXT 6051 document. To access and confirm if your road participates, please visit:

www.shipcsx.com -> Rail Partners tab -> RR Pricing and search for CSXT 6051 - Frontmatter.
